The image shows the 'Main general Objectives' slide. The large vertical AMXEDIS logo is on the left. The main title 'Main general Objectives' is at the top center. To the right is a target icon and the AXMEDIS logo. The slide lists five objectives in bold black text:

- Produce and distribute cross media content in protected manner, integrating B2B and B2C sides
- Allowing the content distribution and collaborative production at B2B level
- Create a unified European platform for content distribution in terms of DRM and interoperability
- Increase accessibility to the European audio visual content for its exploitation for entertainment, valorization, etc.

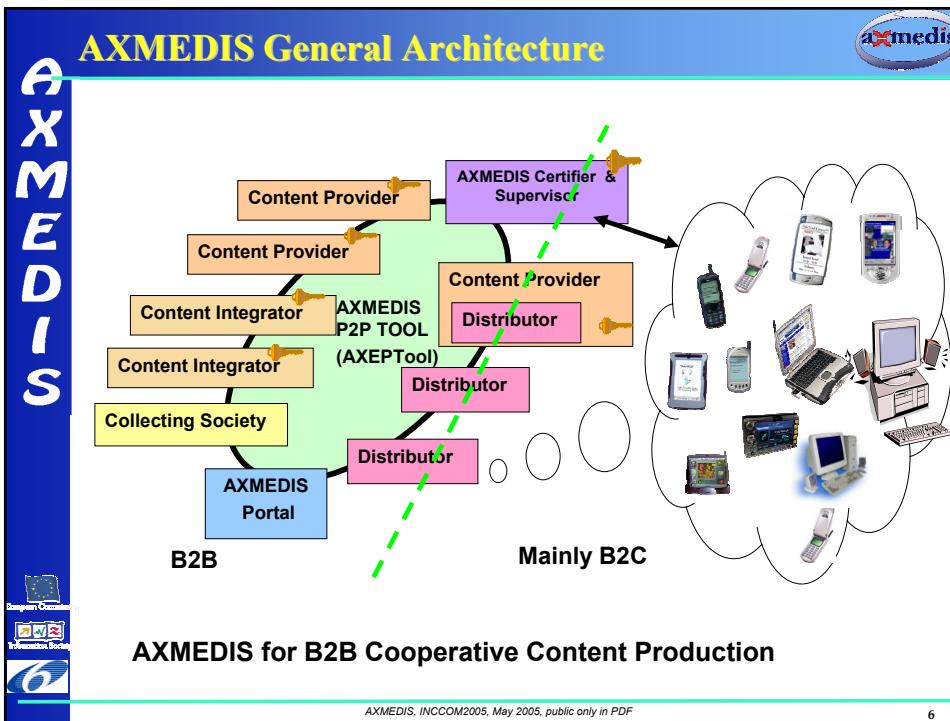

At the bottom, there is a small line of text: 'AXMEDIS, INCCOM2005, May 2005, public only in PDF' followed by the number '4'.

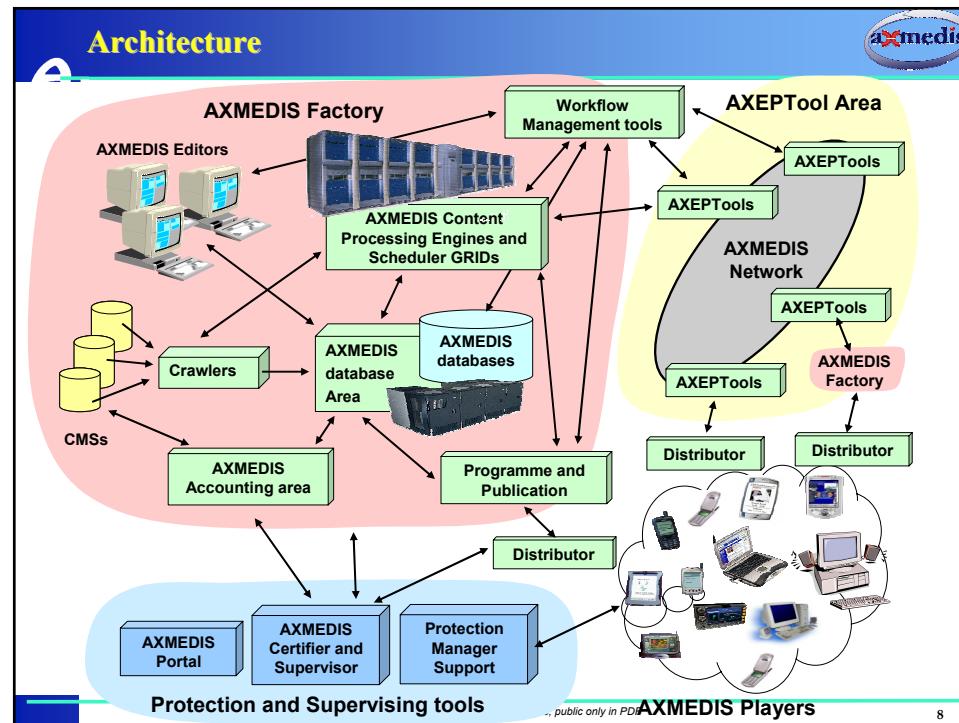

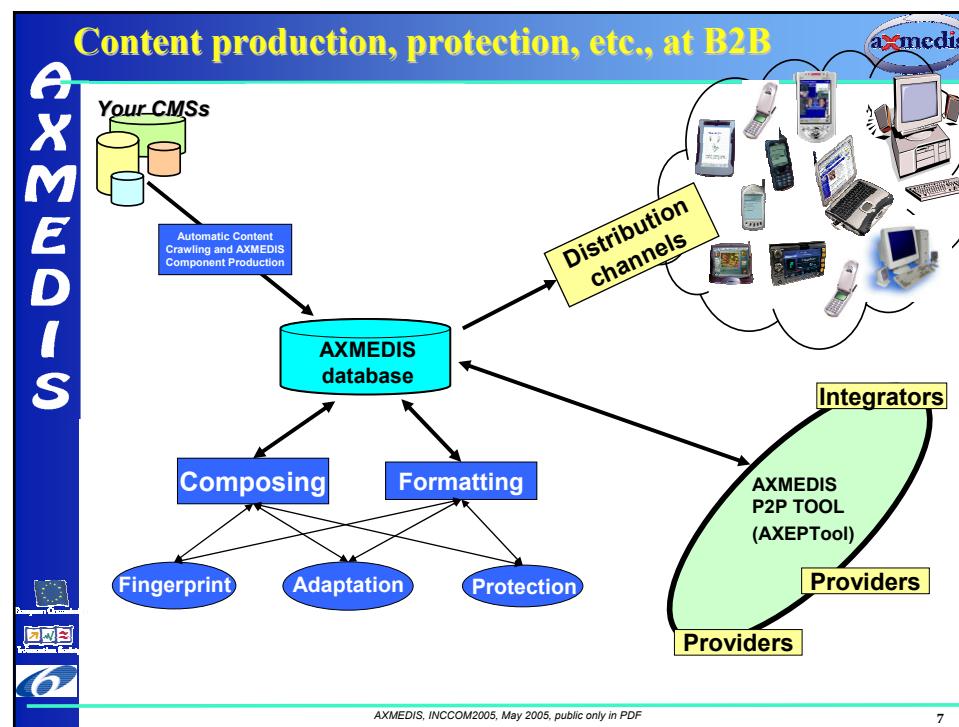

Main technical Objectives

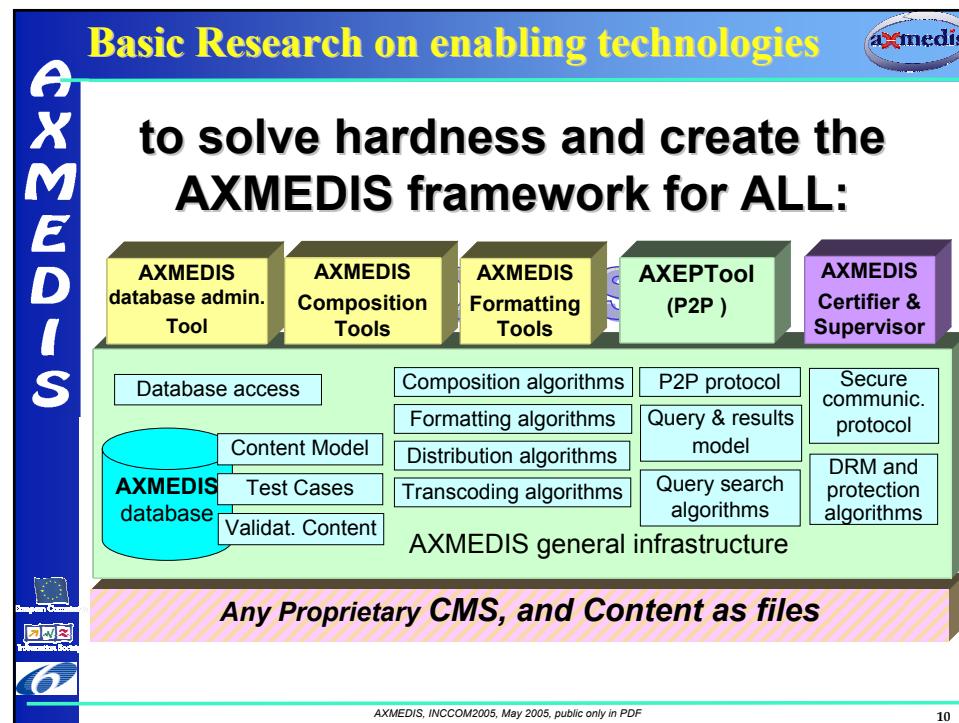

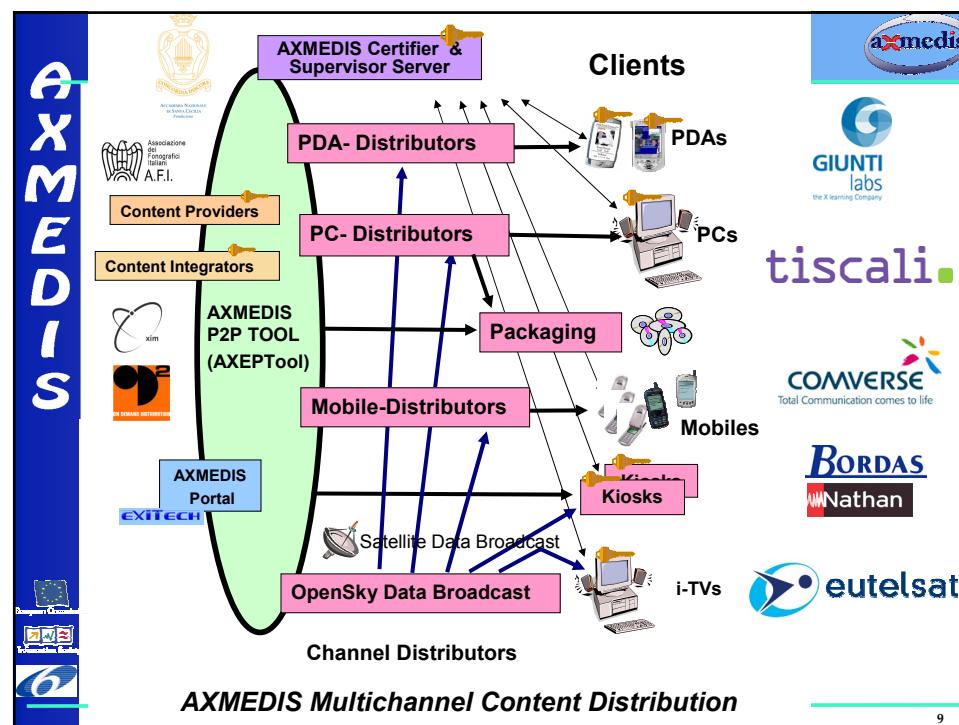

- reducing costs for content production and management by applying Artificial Intelligence techniques to content creation, representation (format) and workflow;
- reducing distribution and aggregation costs in order to increase accessibility with a Peer-to-Peer (P2P) platform at Business-to-Business (B2B) level, which can integrate content management systems and workflows;
- developing and providing new methods and tools for innovative and flexible Digital Rights Management (DRM), including the exploitation of MPEG-21 and overcoming its limitations and support different business and transaction models.
- Integrating present CMSs with AXMEDIS framework and tools
- Creating a technical AXMEDIS framework for all
